# ADVANCED THERAPEUTIC NURSING TRACK WITH HANDS-ON TRAINING

Registration includes attendance to the HITEC sessions on Wednesday and Thursday morning.

Due to the rise of innovative procedures, Endoscopy Units require regular introduction and practice to new therapeutic and diagnostic equipment and supplies. Maintaining competencies with new technologies can be challenging for the entire unit. The HITEC Nursing Track will enable registrants to develop and maintain competency in the ever-changing field of endoscopy and will illustrate an array of emerging therapeutic endoscopic procedures. Registration details and the full nursing track agenda are available online. [hitec-course.com](http://hitec-course.com)

## OBJECTIVES:

After attending this activity, the participant will demonstrate the ability to:

- Establish a comprehensive clinical education program for the integration of new products and procedures into your endoscopy practice.
- Develop a variety of resources and educational pathways to meet individualized learning needs for advanced therapeutic endoscopy staff.
- Give example of advanced endoscopic procedures and identify the equipment and accessories involved.
- Discuss methods to maintain clinical competencies while fostering a supportive learning environment that builds staff confidence and improves overall performances.
